

Transparency Initiative Coordinating Committee (TICC)
October 2015

During October, the Transparency Initiative admitted two additional organizations, leaving us with 76 Charter Members:

- The University of Kentucky Survey Research Center
- The Center for the Study of Los Angeles at Loyola Marymount University

The TICC held its monthly conference call on October 7, during which plans for our second year of official operations were discussed. A short term goal is to update our website, and explore the development of additional educational resources.
