

## **Transparency Initiative Coordinating Committee (TICC) April 2016 Report**

The TICC held its April conference call on the 5<sup>th</sup>. Final results from the TI member survey were reviewed and it was recommended that some of the qualitative quotes from that survey be included in our marketing materials. A final version of the results was prepared later in April. It will be distributed to the AAPOR Council, to all TI members, and copies will also be made available during the TI Open House that will be held during the annual conference. There was additional discussion of plans for the TI Open House, and additional reporting from TICC members of outreach work with non-members. We also discussed succession plans for a new Chair of the TICC. Several TICC members are rotating off the committee in May and plans are also under way to identify new members to replace them. These will be announced during the annual conference next month.
