

Transparency Initiative Coordinating Committee (TICC) February 2016 Report

The TICC met on February 8. We focused on outreach to non-TI members, particularly organizations that had initially endorsed the Transparency Initiative but had not followed up by applying for membership. We also discussed plans for a TI Town Hall at the annual conference, during which we will invite TI members to record brief testimonials that we might be able to post on the TI web page. We also agreed to conduct a survey of TI members to learn about their experiences with the application process and any potential problems they had with it. It was agreed that this survey would be sent out by AAPOR's President. Later in February, that survey was launched.
