

Transparency Initiative Coordinating Committee (TICC) November 2015 Report

The Transparency Initiative admitted two more members during November, bringing the total number of TI member organizations to 78:

- The SoonerPoll
- The Marquette University Law School Poll

The TICC held its monthly conference call on November 4. During that meeting, we discussed several topics, including the Committee's review of and revisions to TI web page materials on the AAPOR website, our continuing work on adding new educational materials concerned with TI disclosure protocols for qualitative and content analysis research, and the issue of member obligations to release TI disclosure elements when clients refuse to do so. Regarding this latter issue, it was agreed that the Committee would spend more time examining this topic during our next call, set for December 2.
