

Transparency Initiative Coordinating Committee

September 2014

The “soft” launch of the Transparency Initiative took place on September 8th, when the ~80 organizations who self-identified as “friends” of the Transparency Initiative were sent invitations to formally apply for membership. By the end of the month, a dozen organizations had initiated the application process. Plans are ongoing for the TI’s “hard” launch in October. Also during September, the TICC met twice, on the 2nd and 16th. Those meetings focused on last minute details and review strategies for the first sets of applications that are received.
