

Transparency Initiative Coordinating Committee (TICC)

January 2015

During January 2015, 13 new organizations joined the Transparency Initiative as Charter Members. As this number suggests, TICC members have been very busy conducting application reviews and working with applicants to insure that their methodological reporting meets the standards outlined in AAPOR's Code. The TICC met once as a full committee this month, on January 27.

During that conference call, the possibility of posting (on a volunteer basis) final versions of TI member methodological reports on our website was discussed, as was the question of whether or not to consider admitting TI applicants from other nations, plans to for developing an evaluation of the TI, and plans for collaboration with AAPOR's Communications Committee (a meeting was held between TICC and Communications Committee representatives on January 20).

The TICC also welcomed Peter Miller as a newly appointed member of our committee.
