

Transparency Initiative Coordinating Committee (TICC)

March 2015

Two new Charter Members joined the Transparency Initiative this month: the Rutgers University Eagleton Center for Public Interest Polling and AARP. We now have 34 members. Several new applications were also received this month and are currently under review by members of the TICC. Our Committee met twice this month, on March 10 and March 31. We are also making plans for an in-person meeting during the annual May conference, and we will be making a presentation regarding the Transparency Initiative at the June WAPOR conference.
