

Transparency Initiative Coordinating Committee (TICC)

November 2014

During November 2014, six additional organizations were admitted to the Transparency Initiative:

- SSRS
- Langer Research Associates
- The Washington Post
- The Public Religion Research Institute
- Abt SRBI
- ICF International

TICC staff were very busy in working with these organizations to successfully complete their application materials. Also, the TICC met twice during November, on the 5th and 19th. Topics discussed during these meetings centered on consideration of other potential types of Transparency Initiative (TI) affiliations to cover organizations that do not actively collect or report survey data, and the archiving of TI materials. In addition, the TI continued to work with students at American University who are developing an outreach plan for the TI as part of a class project this semester.
